## 3. About cookies

- 3.1 A cookie is a file containing an identifier (a string of letters and numbers) that is sent by a web server to a web browser and is stored by the browser. The identifier is then sent back to the server each time the browser requests a page from the server.
- 3.2 Cookies may be either "persistent" cookies or "session" cookies: a persistent cookie will be stored by a web browser and will remain valid until its set expiry date, unless deleted by the user before the expiry date; a session cookie, on the other hand, will expire at the end of the user session, when the web browser is closed.
- 3.3 Cookies do not typically contain any information that personally identifies a user, but personal information that we store about you may be linked to the information stored in and obtained from cookies.
- 3.4 Cookies can be used by web servers to identify and track users as they navigate different pages on a website and identify users returning to a website.

## 4. Our cookies

- 4.1 We use both session and persistent cookies on our website.
- 4.2 The names of the cookies that we use on our website, and the purposes for which they are used, are set out below:

[Woocommerce](#) for [www.vape-coil-wire.com](http://www.vape-coil-wire.com)

To keep track of cart data, WooCommerce makes use of 3 cookies:

- woocommerce\_cart\_hash
- woocommerce\_items\_in\_cart
- wp\_woocommerce\_session\_

The first two cookies contain information about the cart as a whole and helps WooCommerce know when the cart data changes. The final cookie (wp\_woocommerce\_session\_) contains a unique code for each customer so

that it knows where to find the cart data in the database for each customer. No personal information is stored within these cookies.

Sellerdeck for [www.wireandstuff.co.uk](http://www.wireandstuff.co.uk), [www.themeshcompany.com](http://www.themeshcompany.com) and [www.diy-mesh.com](http://www.diy-mesh.com)
